Natural Soaps

Soap shouldn't be dehydrating. But mass-produced commercial soaps often are due to the use of detergents and the extraction of glycerin. At Castle Baths, we make all of our natural soaps (intended for people) with organic and vegan ingredients to help moisturize your skin while they cleanse. Enjoy these handmade natural soaps from Castle Baths!

Did you know?

You should never let a clay mask dry fully.

If your clay mask is cracking and flaking, chances are you've left it on too long, and it's now sucking moisture out of your skin, causing dehydration and irritation. When your mask starts to lighten in color but still feels a bit sticky, it's time to wash it off.
